Qualicom Automobile Wash Recycling System

QUALICOM
SOLUTIONS (P) LTD

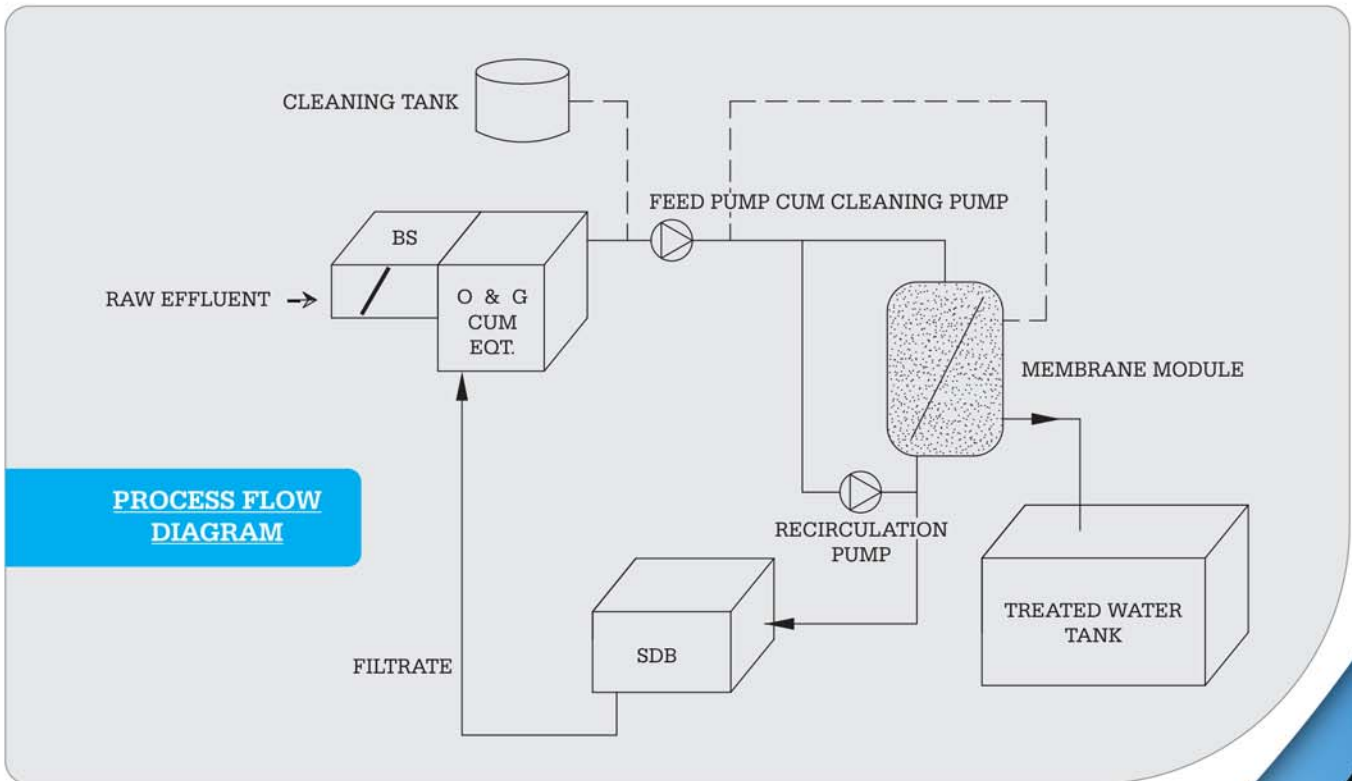

Qualicom specializes in Environment Engineering and Water Resource Management.

For last more than 15 years, Qualicom has been innovating highly optimized solutions in Raw Water Treatment, Effluent Treatment and Recycle and Zero Liquid Discharge to Industrial and Commercial Institutions, Defence Establishments, Municipalities and Urban communities.

Qualicom integrates extensive range of technologies with design, engineering and project management capabilities to offer end to end solutions to the industry.

The essence of research and development in Qualicom is to make the resource recyclable and to make the entire waste management scheme energy positive while optimizing both the capital and life cycle cost of the treatment schemes. In Qualicom, we believe in building an environment of Sustainable and Inclusive growth.

The waste water emanating from car wash in modern Automobile Service Centers is laden with very high amount of mud and dust in Suspended form as well as oil which is present in both emulsified & non emulsified condition.

- Can take load of TSS upto 2500 ppm & Oil & Grease upto 500 ppm.
- Bar Screen to arrest the floatables and grit.
- Non Polymeric membrane filtration unit to remove the emulsified Oil & TSS.
- Cleaning Tank Arrangement for periodic cleaning.
- Microprocessor based control panel to control the system in Automode.

- 1 **Completely prefabricated and compact unit**
- 2 **Plug & Play System**
- 3 **Automatic**
- 4 **100 % Reusability**
- 5 **Can be shifted easily**
